📄 SUMMARY

CCNA-certified Network Engineer with 1.5 years of hands-on experience in configuring, monitoring, troubleshooting, and maintaining enterprise LAN/WAN infrastructure. Skilled in Cisco Routing & Switching, TCP/IP, IPv4/IPv6, VLANs, IP addressing, subnetting, OSPF, EIGRP, DHCP, DNS, NAT, ACLs, and IPSec/SSL VPNs. Experienced in network troubleshooting using Cisco IOS, Wireshark, Ping, and Traceroute, with additional exposure to firewalls, Windows Server, Active Directory, AWS cloud networking, and Python automation. Open to Network Engineer opportunities across the GCC.

🧠 SKILLS AND TOOLS

Networking

Fundamentals: LAN/WAN, TCP/IP, IPv4/IPv6, VLANs, IP Addressing, Subnetting, NAT, ACLs

Routing & Switching: Cisco Routers & Switches, Cisco IOS, OSPF, EIGRP, Routing, Switching

Network Security: Firewalls, IPSec VPN, SSL VPN, Network Security, ACLs

Network Services: DHCP, DNS, Active Directory, Windows Server

Cloud & Automation: AWS Cloud Networking, Python Scripting, Network Automation

Troubleshooting: Wireshark, Ping, Traceroute, Connectivity Troubleshooting, Incident Resolution

Tools: Cisco Packet Tracer

📁 PROFESSIONAL EXPERIENCE

Network Engineer, Global Security Technology LLC

07/2026 – Present | Oman, Muscat

- Supported the installation, configuration, and maintenance of **networking and security infrastructure**, including routers, switches, IP-based devices, and network connectivity.
- Assisted with **network troubleshooting, IP addressing, VLANs, and connectivity issues**, ensuring reliable communication across networked systems.
- Coordinated with technical teams to support **network security systems, preventive maintenance, device configuration, and incident resolution**.

Network Engineer, Advanced Idea Analytics Pvt Ltd

01/2025 – 06/2026 | New Delhi, India

- Configured, maintained, and supported **Cisco routers, switches, and enterprise LAN/WAN infrastructure** to maintain reliable network connectivity.
- Configured and supported **VLANs, IP addressing, subnetting, OSPF, and EIGRP** across network environments.
- Monitored network performance and investigated connectivity issues to support **high network availability and reliable operations**.
- Assisted with **firewall configuration, IPSec/SSL VPN setup, ACLs, and network security implementation**.
- Performed network troubleshooting using **Cisco IOS, Ping, Traceroute, and Wireshark** to identify and resolve connectivity and performance issues.
- Supported **DNS, DHCP, Active Directory, and Windows Server** administration as part of network and infrastructure operations.
- Assisted with installation and configuration of **network devices, wireless access points, and structured network cabling**.
- Maintained **IP address inventories, network documentation, topology diagrams, incident records, and troubleshooting documentation**.
- Collaborated with senior network engineers on **preventive maintenance, infrastructure upgrades, incident resolution, and network troubleshooting**.
- Applied networking concepts including **routing, switching, subnetting, NAT, VPN, VLANs, ACLs, and firewall technologies** in day-to-day infrastructure support.
- Developed basic **Python scripts to automate routine networking tasks** and supported network-related activities within AWS cloud environments.
- Managed support tickets and provided timely technical assistance for **end-user network and connectivity issues**.

CERTIFICATIONS

Cloud Computing (NPTEL)

Fundamental of Artificial
intelligence (NPTEL)

Getting Started With Threat
Intelligence and Hunting (IBM)

Journey to Cloud: Envisioning Your
Solution (IBM)

Workshop: Parallel Processing,
Operating System

Nationality: Indian

Location: Hyderabad, India | Open
to relocate across GCC

Availability: Immediate

Languages: English

PROJECTS

Enterprise Multi-Branch Network Infrastructure  , Cisco Packet Tracer

- Designed and simulated a six-branch enterprise network infrastructure using Cisco Packet Tracer, implementing logical and physical network topologies for multi-site connectivity.
- Configured OSPF and RIPv2 routing with route redistribution, enabling communication and dynamic routing across multiple branch networks.
- Implemented VLAN segmentation and inter-VLAN communication to improve network organization, traffic management, and isolation across branch environments.
- Configured and simulated VoIP and Wireless LAN Controller (WLC) infrastructure, gaining hands-on experience with enterprise wireless and voice networking.
- Technologies: Cisco Packet Tracer, OSPF, RIPv2, VLAN, Inter-VLAN Routing, WLC, VoIP, Enterprise Networking

EDUCATION

New Horizon College of Engineering, B.E, Computer Science and Engineering

2020 – 2024 | Bangalore, India

CGPA: 6.91

Snatak College, Intermediate (12th), Bihar School Examination Board

2017 – 2019 | Islampur Nalanda (Bihar)

Percentage: 70.4

G.M.K High School, Matriculation, Bihar School Examination Board

2015 – 2016 | Islampur Nalanda (Bihar)

Percentage: 67.4

PROFESSIONAL CERTIFICATION

Cisco Certified Network Associate [CCNA]

06/2026 – 06/2029

Credentials - CSC015243990
